Lo spazio
organizzato verticale,
intelligente e creativo.

Space
organized vertically,
smart and creative.

FIT

E' l'innovativo sistema di accessori interni che si adatta come un abito sartoriale all'interno dei cassetti di ogni cucina e dà massima libertà di configurare e ordinare gli spazi in base al proprio gusto e alle proprie esigenze.

FIT si contraddistingue per la precisa disposizione organizzata in senso verticale e per la sua eleganza che si adatta ad ogni situazione.

La tipica suddivisione verticale permette di utilizzare al massimo tutti gli spazi.

Ricco e ricercato nel design, FIT è realizzato con una cura e precisione artigianale nei dettagli e con materiali pregiati.

Tutti gli elementi che compongono la serie sono realizzati con una base di MDF nero in pasta, impiallacciati con essenze di legno mentre gli elementi divisorii sono in legno massello oppure alluminio anodizzato o verniciato.

I materiali utilizzati comprendono speciali finiture antigraffio per un uso sempre sicuro e duraturo nel tempo.

Nel sistema FIT è prevista la versione portaposate e la versione dispensa declinate in differenti composizioni e misure.

FIT is the innovative system of interior accessories that fits like a tailored suit inside the drawers of every kitchen and gives complete freedom to set up and organize spaces, according to every personal demands.

FIT is characterised by the precise vertically organized disposal and for its elegance, that is adapted to every situation.

The typical vertical disposal allows to make maximum use of all the spaces.

Rich and refined in design, FIT is designed with a craftsman's attention to details, made of fine materials.

All the elements that make up the series are made of a base in black MDF in paste with veneer and wood essences, while the dividing elements are made of solid wood or black anodized aluminum.

The materials used include special anti-scratch finish for a safe and long lasting use.

The FIT system includes the cutlery version and the pullout version, both characterized by different compositions and measures.

FIT PORTAPOSATE

FIT CUTLERY INSERT

Gli elementi portaposate FIT si dividono in due tipologie di configurazione, la prima con la classica suddivisione degli spazi per la posateria, la seconda invece più orientata al contenimento degli accessori e agli attrezzi da cucina. Entrambe possono poi essere arricchite da accessori opzionali come portacoltelli, portapellicole, portaspezie, contenitori in vetro, portacialde caffè, taglieri, etc.

The FIT cutlery elements are divided into two typologies of configuration, the first with the classic division of the spaces for the cutlery, the second, instead, more oriented to contain accessories and kitchen tools. Both can then be enriched with optional accessories like knife holders, film holders, spice containers, glass containers, coffee pot holders, cutting boards and so on.

FIT DISPENSA

FIT PULL OUT

La dispensa FIT è studiata e configurata in base a funzioni di contenimento specifiche: dispensa portapentole con eleganti ed efficaci guarnizioni applicate sul fondo per un effetto antiscivolo; dispensa portapiatti con pilastrini di contenimento che possono essere liberamente posizionati per adattarsi ai diversi diametri dei piatti; dispensa con divisorii fissi per riporre scatolame, barattoli, e generi alimentari confezionati.

The FIT pull out has been designed and configured according to specific containment functions: the pot holder with elegant and functional seals applied to the bottom for a non-slip effect; the dish holder pullout with containment pillars, that can be freely placed for the adaptation of the different dishes' diameters, and the pullout with fixed dividers to store canned goods, jars and packaged food.

ESEMPI DI CONFIGURAZIONE FILO DISPENSA

ESEMPIO DI CONFIGURAZIONE FILO DISPENSA

Troviamo
uno spazio perfetto per
ogni oggetto da cucina

We find
a perfect place for
every single kitchen's tool.

ACCESSORI

Dove lo metto?
Abbiamo pensato a tutto!

Quando entriamo in una cucina ci accorgiamo che tanti piccoli oggetti che rientrano nell'utilizzo quotidiano della preparazione dei cibi e delle bevande non hanno uno spazio specifico. Spesso vengono posizionati sul piano della cucina, appesi a ganci o calamite, riposti su mensole o sui ripiani dei pensili chiusi o a vista, opppure sparpagliati all'interno dei cassetti.

Per chi desidera organizzare e ottimizzare gli spazi, ogni oggetto potrà avere il suo giusto collocamento.

Il sistema Fit e Filo è arricchito con una serie di speciali accessori posizionabili nei comparti delle portaposate e delle dispense studiati per contenere piccoli oggetti, grandi coltelli, pellicole per alimenti, cialde per caffè, portaspezie, set per la preparazione degli impasti, set per i condimenti, set per i cocktail e per i vini, appositi spazi per riporre taglieri, portabottiglie, portabicchieri sino allo scolapiatti.

E' previsto inoltre un compensatore che viene utilizzato all'interno dei cassetti con profondità 60 cm. Può essere abbinato al fondo delle portaposate o della dispensa. Il compensatore è disponibile per cassetti da *45, *60, *75, *90, *105 e *120 cm. di larghezza.

Where do I put it?
We have thought of everything!

When we walk into a kitchen, we realize that a lot of small objects of daily use for food and drink preparation don't have a specific place to be put in. They are often placed to the kitchen's worktop, hang on hooks or magnets, put on shelves of closed or opened kitchen's cabinets, or spread inside the drawers.

For those who desire to organize and optimize all the spaces, every object will have its right placement.

The FIT and FILO system is enriched with a series of special accessories that can be placed in cutlery and pullout's sectors, designed to contain small objects, big knives, cling film, coffee pots, spice containers, sets for dough preparations, condiments sets, wine and cocktail sets, spaces for cutting boards, bottle holders, glass holders, till drainers.

A spacer is also provided for being used inside the drawers with a depth of 60 cm.
The spacer is also available for drawers of 45, 60, 75, 90, 105 and 120 cm of width.

CONFIGURAZIONI ACCESSORI

Qualche suggerimento per ordinare e organizzare i cassetti e la dispensa tenendo conto delle differenti misure disponibili.

I 14 accessori pensati per la collezione portaposate Fit e Filo si inseriscono perfettamente all'interno dei divisorì secondo gli schemi indicati.

Nelle versioni dispensa Fit e Filo lo spazio è più aperto e meno vincolante. Per queste motivo sono stati progettati degli eleganti, pratici e funzionali box multiuso posizionabili in serie sia parallelamente, sia perpendicolarmente all'apertura dei cassetti.

Tantissime combinazioni che possono essere personalizzate seguendo il proprio stile di vita. Una grande libertà nella scelta, tanti spazi da riempire a piacere.

Some suggestions to tidy up and organize drawers and pullout, considering the different measures available.

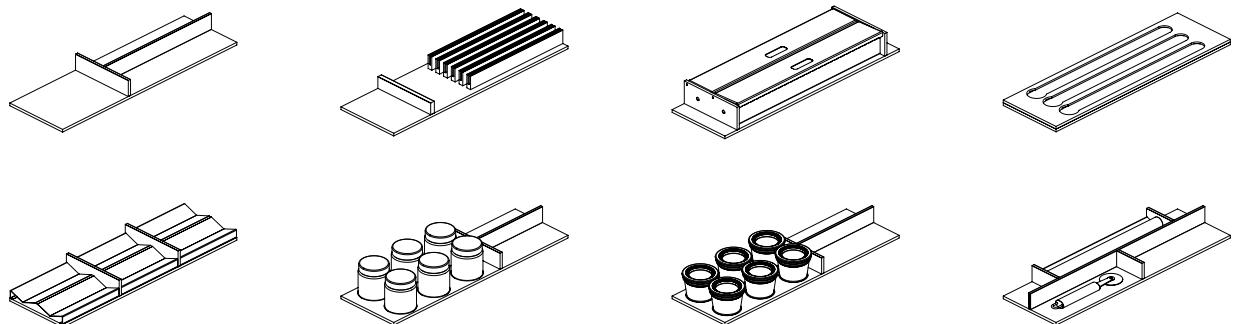

The 14 accessories, thought for FIT and FILO cutlery collection, perfectly fit into the dividers, according to the scheme indicated.

In FIT and FILO pullout versions, the space is more open and less binding. For this reason, some elegant, practical and functional multi-purpose boxes have been projected, which can be positioned in series both in parallel and perpendicularly to the opening of drawers.

Lots of combinations that can be customized according to each lifestyle. A great freedom in the choice, many spaces to fill as desired.
